TWILIGHT SLEEP.

The one great burning question of the day, aside from the great war, is twilight sleep, the so-called painless method of childbirth. Within the past few weeks the New York newspapers have given pages to the discussion of the merits of the Freiburg treatment and in instances where it has "gone wrong" investigation has demonstrated that the attending physician did not that the attending physician did not follow the Koenig and Gauss technique and that some other drug besides scopalomin was used on the patient. As a result of this controversy it has been demonstrated that every one of the great maternity hospitals in New York are using the twilight sleep treatment most successfully in selected cases.

Dr. Kurt E. Schlossingk, who for four years was assistant to Drs. Koenig and Gauss at the famous Frauenklinik clinic at Freiburg, where twilight sleep was discovered in 1905, came to this country last June to teach the tech-nique. He held clinics at the Jewish Maternity, Lebanon, Manhattan Lying In. Salome Maternity, Miselicordia, and the Hahnemann hospitals in New York city, the Jewish hospital in Brooklyn, the Cook County and Mary Thompson hospitals in Chicago, also hospitals in Detroit and Buffalo. In these various hospitals he had over 500 twilight cases which were successful.

The Motherhood Educational society is sending to the Davis thestern
